Professional Summary

Frontend Developer with 3 years of experience building performant web applications using React, TypeScript, Redux, and modern JavaScript. Adept in API integration (REST), responsive UI development, and optimizing frontend code for maintainability and performance.

Technical Skills

- Languages : JavaScript (ES6+), HTML5, CSS3, JSX
- Framework : React, TypeScript, Redux, React Hooks
- Integration : REST APIs
- Tools and Technology : Git, Node.js, NPM, ESLint, Chrome DevTools
- Testing: Jest

Work Experience

Frontend Developer

Trustt (Formerly Novopay) – Bangalore, Karnataka | Jun 2022 – Present

- Developed and maintained dynamic interfaces using React, TypeScript, Redux, and Hooks.
- Integrated APIs (REST) for real-time data rendering across modules.
- Refactored legacy JS codebases with ES6+ best practices.
- Collaborated with backend and UI/UX teams, ensuring cross-functional delivery.
- Ensured responsive design, cross-browser compatibility, and UI reliability using Jest.

Projects

- **Loan Management System UI:** Built modular loan application components; managed global state with Redux; integrated APIs using Fetch/Axios.
- **Admin Dashboard (SLI Initiative):** Created interactive dashboards with React and Chart.js; implemented protected routing and dynamic data fetching.

Education

Bachelor of Engineering (B.E.), Electronics and Communication Engineering
Karpagam College of Engineering, Coimbatore (2016–2020)

Certifications

- Fellowship in Software Development - Frontend (Apr 2025)
- Programming with JavaScript - Meta (Mar 2024)
- Web Development Bootcamp - Udemy (Dec 2023)
